OCEAN CLUB

# THE VISION

When you find a residence that feels right, you just know it. When you enter a residence at Turnberry Ocean Club, you instantly appreciate the superb architectural thought and creativity. A luxury tower must contain more than just excellent floor plans and efficient design, it must have a soul.

The groundbreaking design is both modern and timeless. Intelligent yet simple. It inspires a sense of openness that comes from what you feel, not just from what you see.

We are building Turnberry Ocean Club for an exceptional few.

# THE SKY HAS NO LIMIT

The imagination of most architects relates more to the earth than to the sky. But for world-renowned, Venezuelan-born architect Carlos Zapata, the sky is the ultimate canvas for his award-winning designs. Turnberry Ocean Club brings to life his panoramic vision for movement with richer, more wide open forms — wall to wall, floor to ceiling — using glass like a jeweler uses diamonds. Clean, dynamically shaped structures with warm, inviting spaces that add a sense of traditional home living to his modernist architecture.

INTERIOR ARCHITECTURE  
BY ROBERT M. SWEDROE.

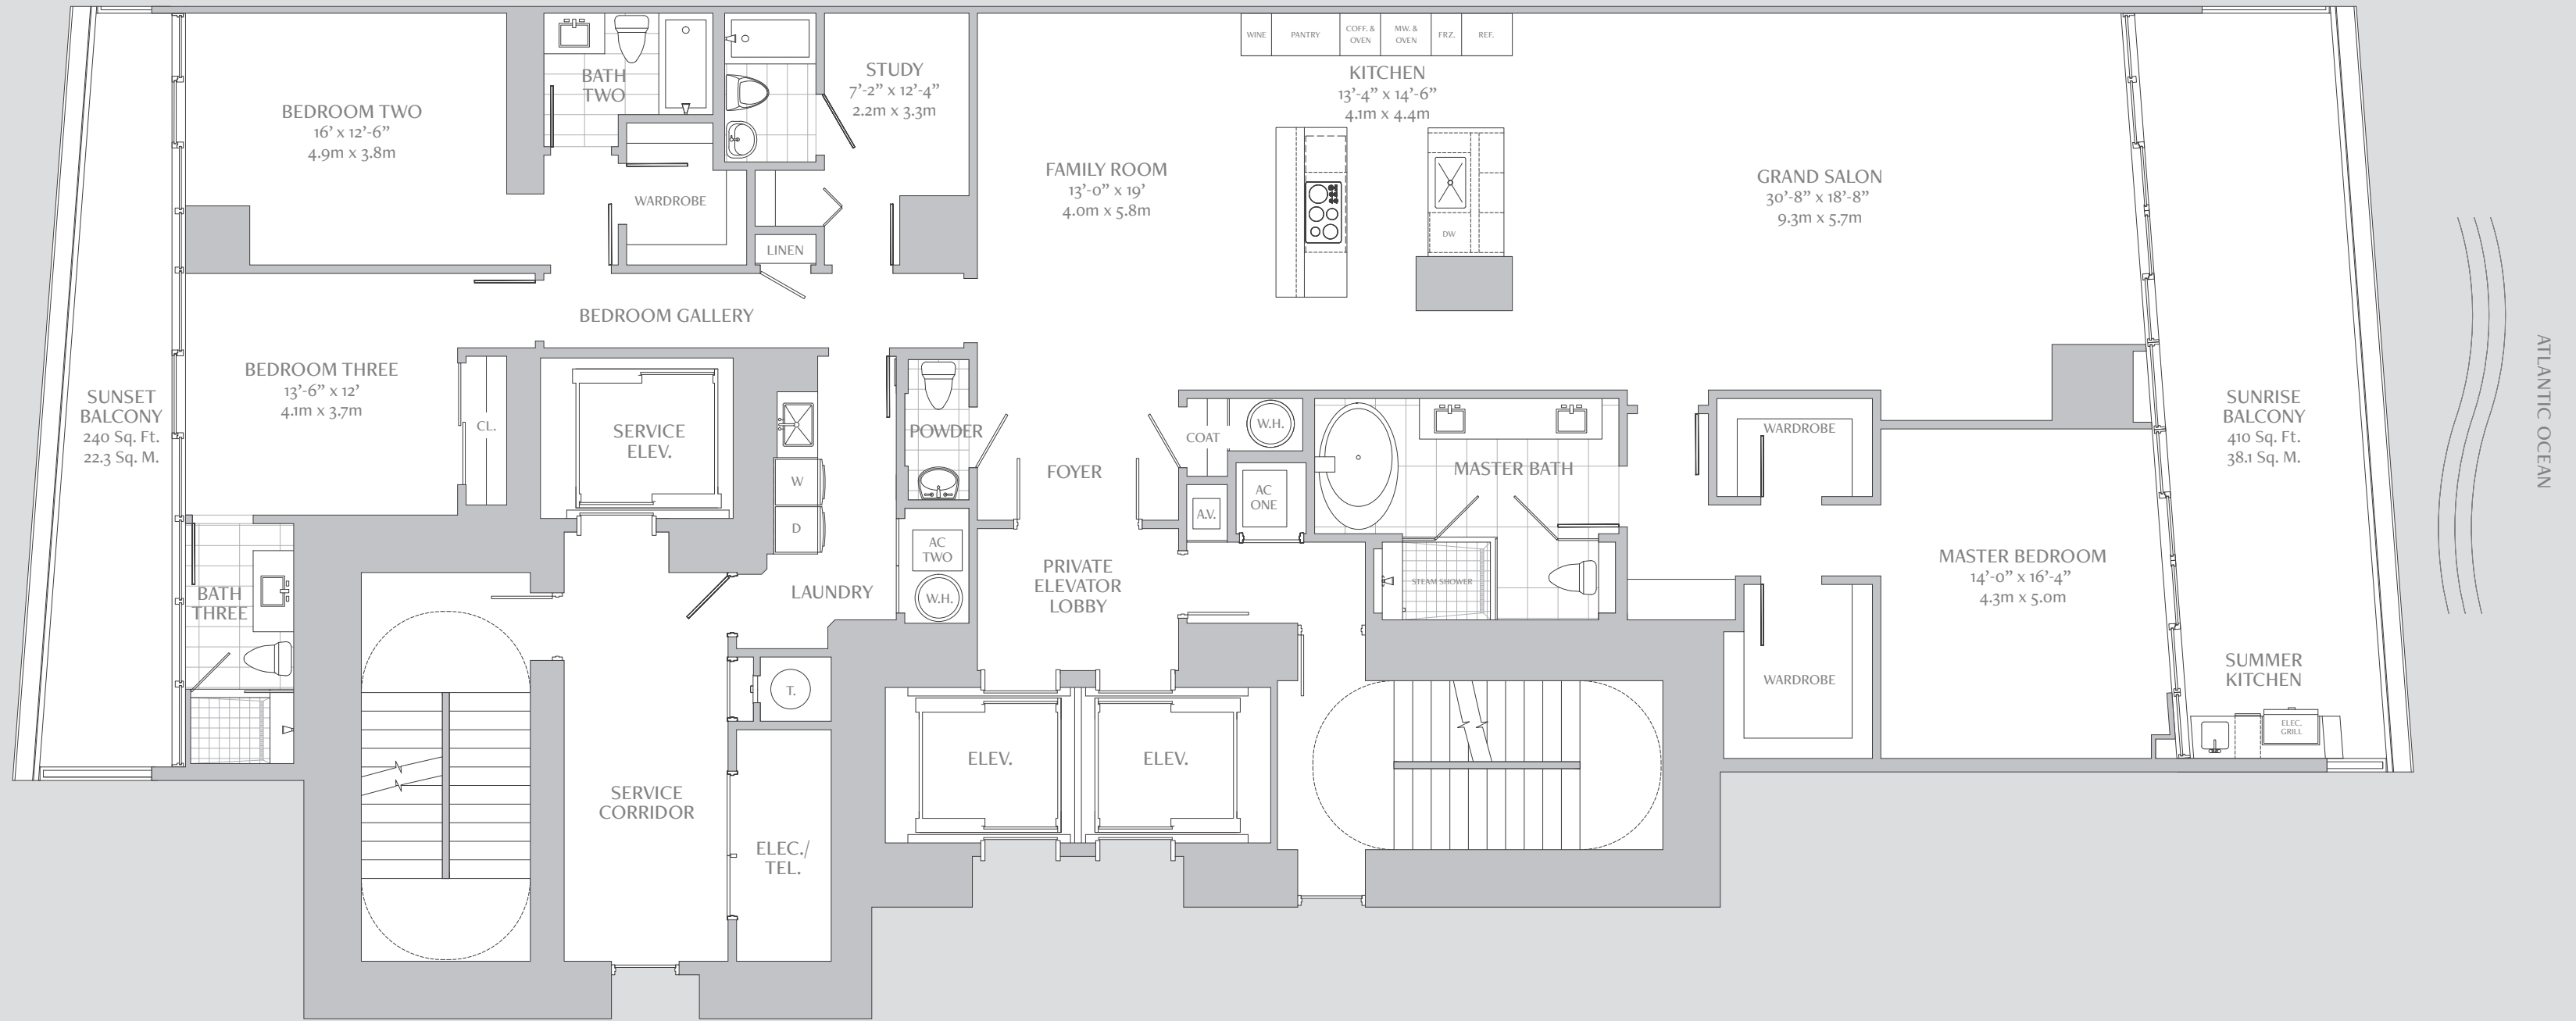

Having spent 12 years as senior design architect for Morris Lapidus, renowned architect of the Fontainebleau Hotel, Mr. Swedroe has an extraordinary talent for design details and creating floor plans that optimize space, flow and ocean views. Fueled by a desire to maximize the quality of life in multi-residential buildings, Yale-educated Mr. Swedroe has introduced trailblazing concepts like flow-through-view residences and direct-entry elevators that eliminate long public corridors. Credited with designing highly glazed modern structures and the world's tallest known oceanfront condominium with all private-entry elevators, Mr. Swedroe has always been on the forefront of innovation.

# DESIGN TEAM

Jeffrey Soffer

One of the country's most highly regarded real estate developers, Jeffrey Soffer has been dedicated to Turnberry's growth for more than 25 years. His impact and influence can be seen in the development of numerous award-winning projects in South Florida and abroad. Soffer led the \$1 billion expansion and renovation of the company's landmark Fontainebleau Miami Beach, transforming the iconic resort into one of the country's most sought-after beachfront playgrounds. Soffer also has created numerous South Florida residential landmarks, including Turnberry Ocean Colony, Porto Vita, Fontainebleau II and Fontainebleau III, Turnberry Village and more. He brought his company's "mansions in the sky" concept to Las Vegas, and expanded the company into suburban Washington D.C. and The Bahamas with successful high-rise residential developments.

Carlos Zapata

For Venezuelan-born architect Carlos Zapata, the sky is the ultimate canvas for his award-winning designs. Turnberry Ocean Club realizes his panoramic conception of movement with glittering, wide open forms — wall to wall, floor to ceiling. Turnberry's iconic tower uses glass like a jeweler uses diamonds: to reflect and dazzle. Zapata is famed for combining clean, dynamically shaped structures with warm, inviting spaces. These spaces allow for traditional home living in his modernist masterpieces.

Robert M. Swedroe

With twelve years of experience as a senior design architect for Morris Lapidus, renowned architect of the Fontainebleau Hotel, Mr. Swedroe has an extraordinary talent for detail. He creates superb floor plans that optimize space, flow and ocean views. Fueled by a desire to maximize the quality of life in multi-residential buildings, the Yale-educated Mr. Swedroe has introduced trailblazing concepts like flow-through-view residences and direct-entry elevators that eliminate long public corridors. Mr. Swedroe has always been at the forefront of innovation. His ingenious designs include highly glazed modern structures and the world's tallest known oceanfront condominium with all private-entry elevators.

Dan Riordan

Riordan oversees Turnberry's entire residential division, including building development and real estate initiatives. Most recently, he was involved in the development of Turnberry Tower Arlington, the tallest condominium on the Washington D.C. skyline. His responsibilities include all operations, as well as sales and marketing for the \$350 million, 30-story luxury tower where all residences have been completely sold. Riordan's three-decade career includes marketing and selling more than 3,000 condominium units valued in excess of \$2.5 billion and he was instrumental in pioneering condo development in Las Vegas for Turnberry in 1998.
